**ROOTED CLUMPS and PLANT LIST**  
**RETAIL**

Ra  
**BASIC LIST FOR 1957**  
**WHOLESALE**

**DOROTHY A. YOUNG**

**Ames, Iowa — Route 2**

**LIBRARY**

**RECEIVED**

Rooted clumps, plants, etc., of the following varieties to be sent by parcel post, special handling. If you wish Special Delivery or Air Mail service add the charges for same. 75c for special handling, Air Mail charges depending on weight and zone (check with your post office). **ALL ORDERS MUST BE ACCOMPANIED BY A 75c HANDLING CHARGE.** Orders not accompanied by this fee will be returned to sender. Iowa customers must include 2½% sales tax as required by state law **UNLESS** you have a sales permit, in which case send us your permit number for our records. Out-of-state customers, ordering by mail, are not required to send the 2½% sales tax.

Orders will be filled in rotation, this spring, as soon as stock is ready and weather permits, usually about April 15th we can begin to fill mail orders. Canadian customers will have their orders, wholesale or retail, shipped express collect and are therefore not subject to the 75c handling fee. We will accept **ONLY** orders to be sent via express into Canada, no parcel post.

Our rooted clumps are **PLANTED LEAVES WITH YOUNG PLANTLETS ATTACHED.** In case of a few varieties, new or slow growing, we may have to send well-rooted leaves, plantlets not yet sprouted, but this happens only occasionally. We guarantee safe delivery of your order but cannot be responsible for their care and culture after you receive them, as we of course cannot control growing conditions in your home. If your order is damaged in transit, or otherwise not in good order, please return immediately for adjustment or refund. No adjustment will be made unless this is done immediately. Foregoing statement applies to **RETAIL** orders. In case of damage on wholesale orders notify the express people and place your claim **IMMEDIATELY.**

When ordering **PLEASE** list a few substitutions. We do not substitute unless absolutely necessary but do reserve the right to do so if necessary. We do not ship during cold weather on retail orders.

This is a **BASIC** list for 1957. From time to time there will be changes and additions. Supplementary lists will be issued from time to time, the first probably about June 1st, another in late August. If you desire the supplementary lists please let us know as they will be mailed only upon request.

The words "red" and "rose" are often misleading to those uninformed about African violets. There is no true red. "Red" as applied to African violets means plum, maroon, wine, etc. Usually when "Rose" is used as part of a name or in a description it means an orchid-rose or lavender-rose, **NOT** deep pink as many seem to think. We include this information on our list in an effort not to mislead those who are fairly new to African Violet "jargon"!

You will notice we have several pink and white varieties listed. These are all lovely things and we recommend them. However, it is our opinion that the pink and white varieties are still in the pioneer state, many of them go back to solid coloring. As time goes on we will undoubtedly have many, many more pink and white varieties, more dependable—but at the present time we can guarantee only that the rooted clumps were started from leaves of parent plants which bloomed true to name. Most of us know that we went through this same thing with the blue and white, the red and white, that even now blossoms will occasionally "go back" to a solid color in its ancestry.

We are located at Ames, Iowa, ½ mile south of city limits on Highway 69. Hours 11 a. m. to 7 p. m. We are open Sundays and through the week **EXCEPT** on Monday. During July or August we will be closed for two or three weeks. At the time this catalog goes to print we are not sure of the exact dates of our "vacation". Visitors welcome.

**ROOTED CLUMPS**

50c each unless otherwise noted. Rooted clumps are retail only, we do not have them at wholesale rates. Please read the preceding paragraphs **CAREFULLY** before ordering.
